

INDUSTRIAL AREAS FREIGHT ACCESS PROJECT

Port /SDOT Work Program

Seattle Freight Advisory Board

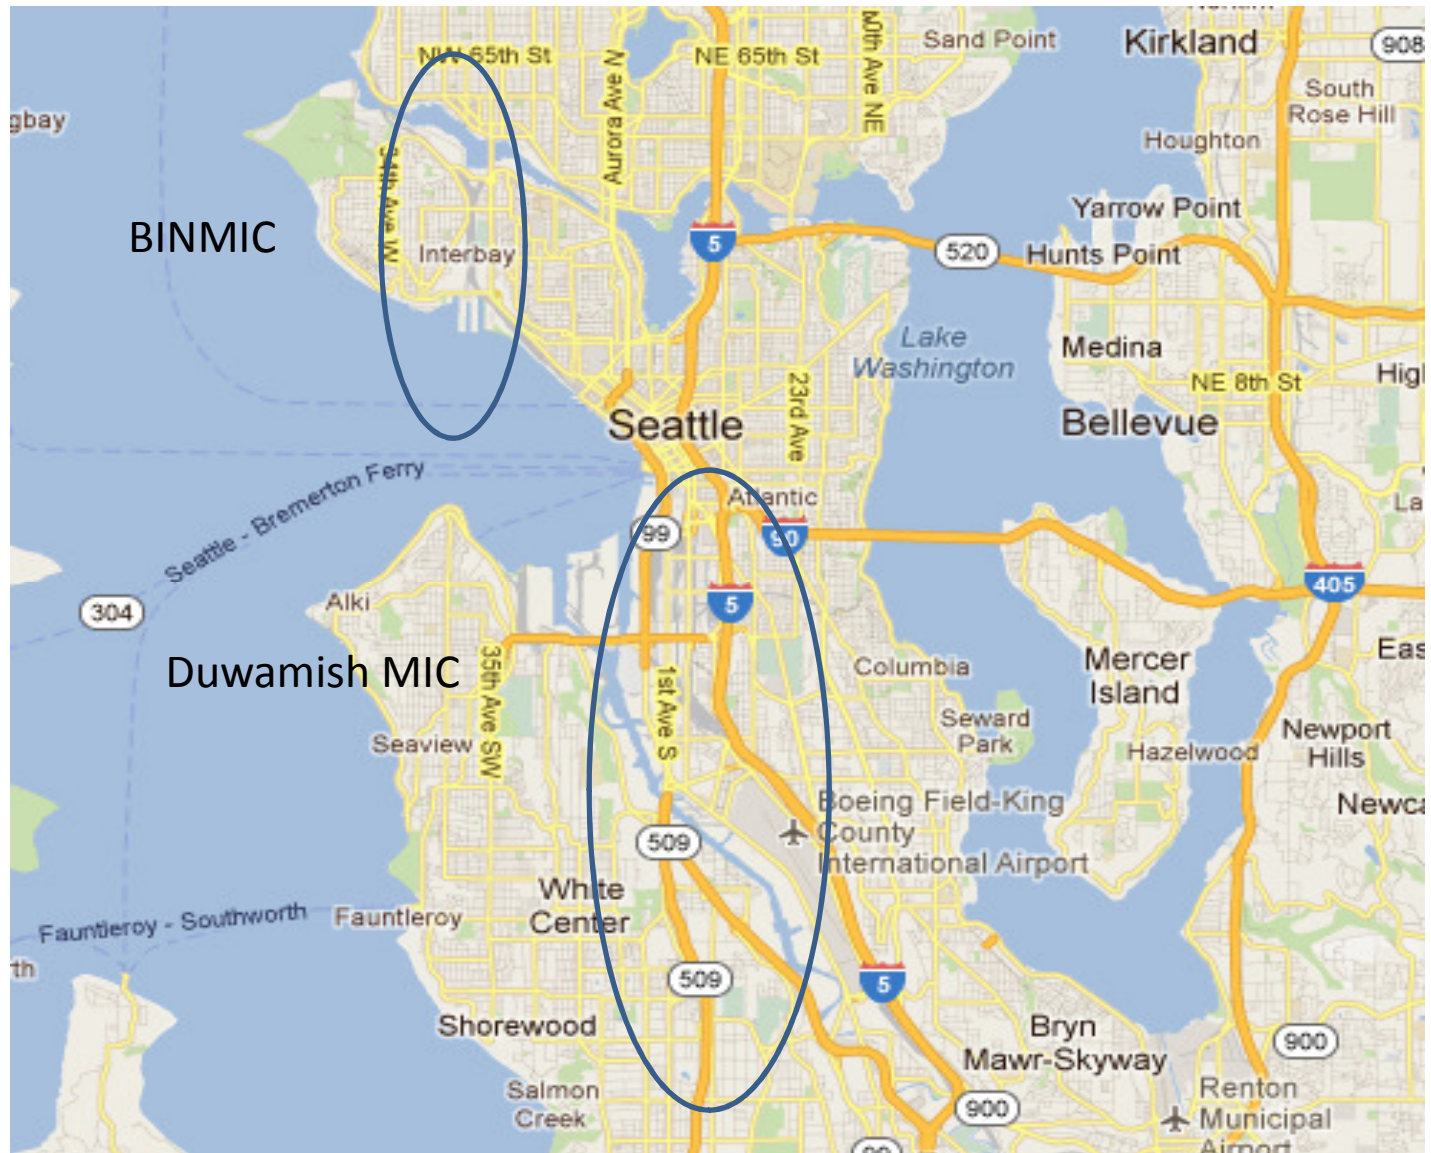

Dan Burke, Port of Seattle

Ron Borowski, SDOT

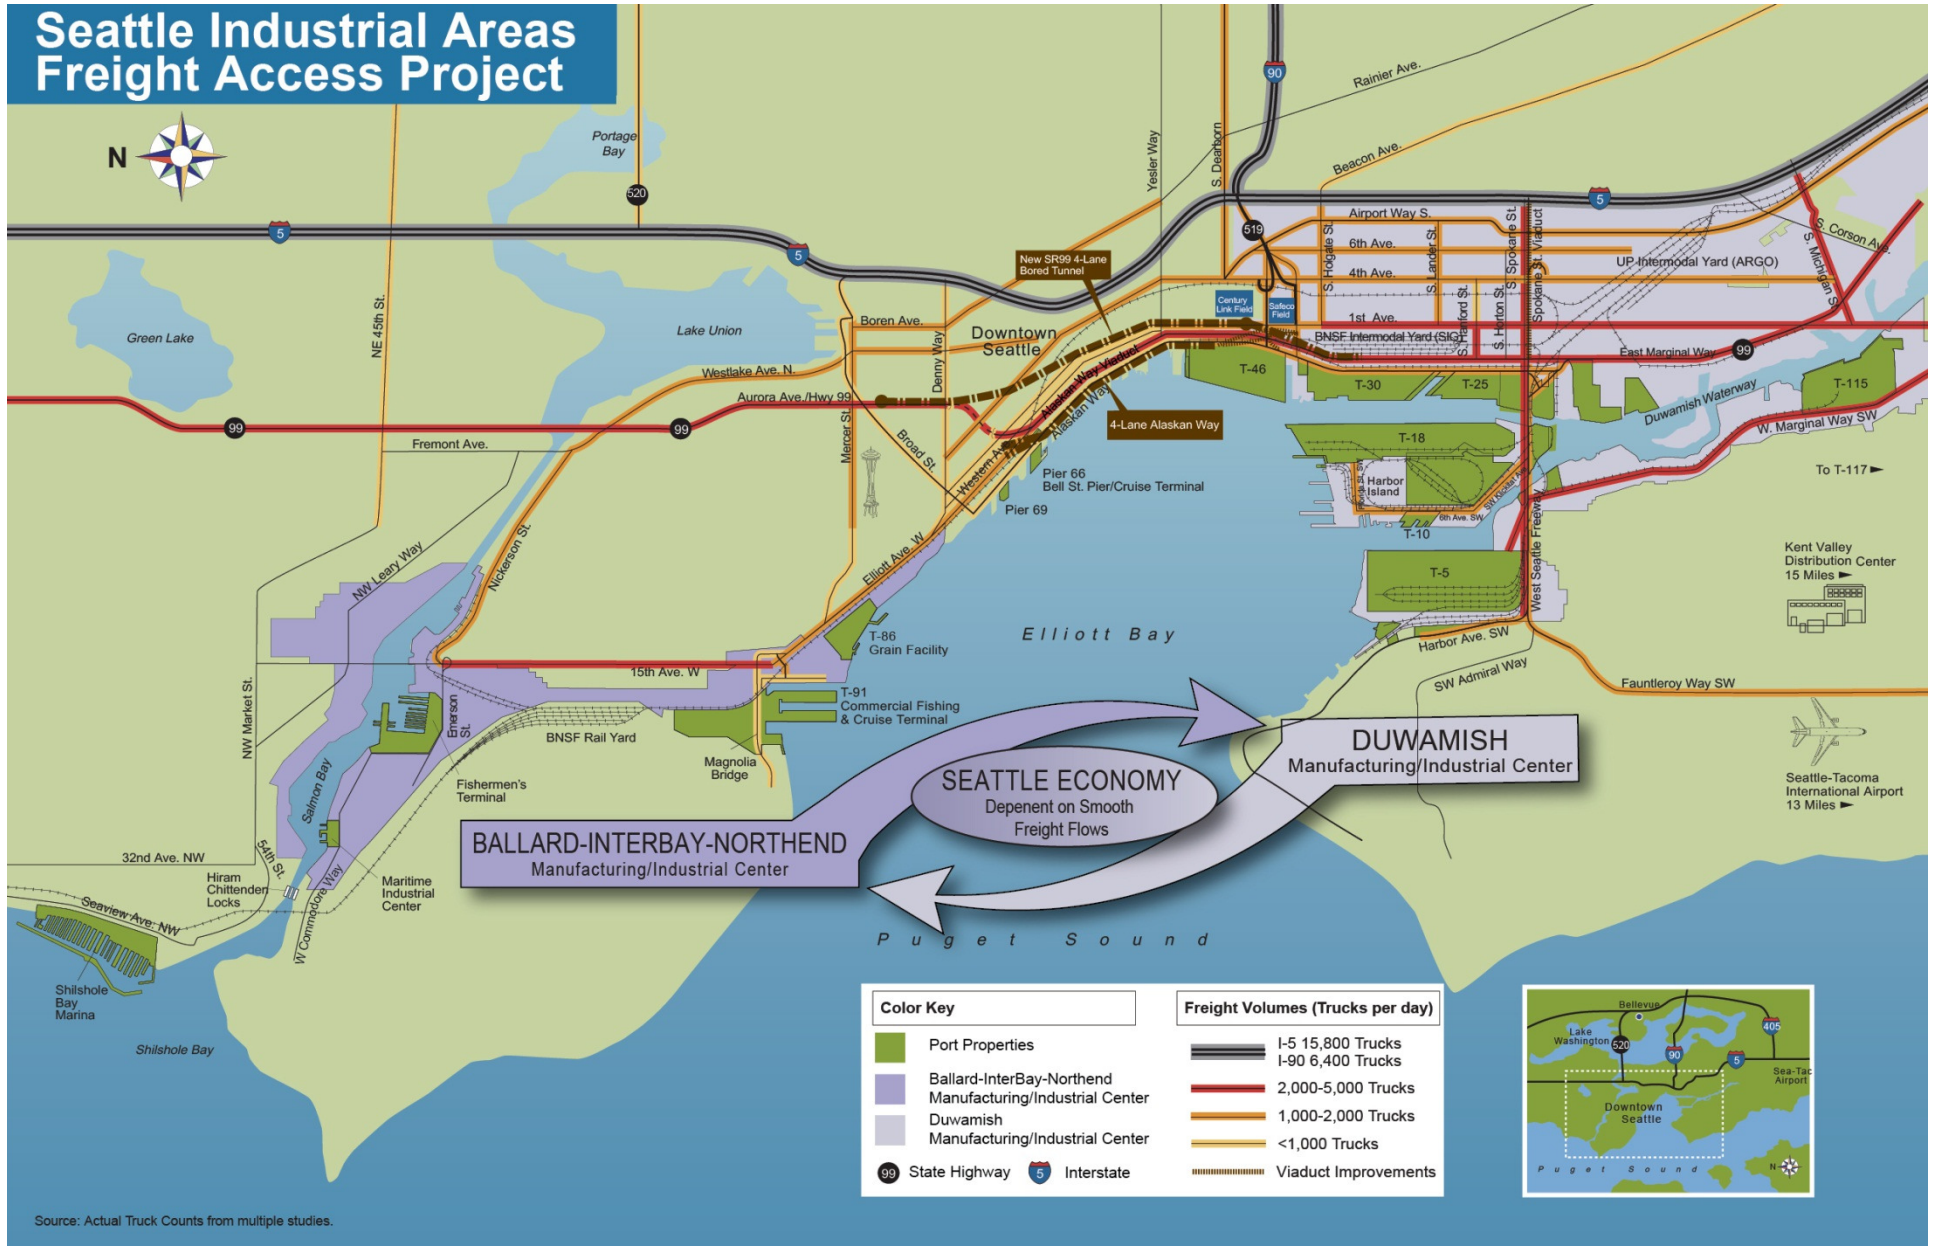

March 19, 2013

Seattle's Duwamish and BINMIC Manufacturing and Industrial Centers

Seattle Industrial Areas Freight Access Project

Purpose and Need

- Identify and evaluate current and future bottlenecks and problem locations
- Evaluate access and circulation within and between the MICs, including key connections from MICs to regional transportation system
- Technical evaluation

Primary Deliverable

- Project will produce a set of capital project and programmatic recommendations to maintain and improve freight mobility in the project area
- Project will inform the future Seattle Freight Master Plan
- Recommendations will be considered in SDOT and Port planning, programming and projects

Budget

- Total - \$283,000
- Federal grant - \$250,000
- Local match (Seattle) - \$33,000
